9. Regarding an email from Desire Washington requesting whether a physician in Cuscoin can have an academic clinical facility appointment at the Medical College of Georgia. Advise this is a clinical facility appointment, since he would not be working in Georgia he would not need a Georgia license.
10. Regarding advice from the Attorney General on whether APRNs who distribute drug samples but who are not authorized to request, receive, or sign for drug samples under O.C.G.A. Section 43-34-26.3 nurse protocols, must have a paragraph in their protocol authorizing the distribution of drug samples, and whether such APRNs must comply with the drug sample log requirements. APRNs who distribute drug samples must be authorized to do so under the nurse protocol agreement. Although the statute provides that the office where the samples are distributed must also keep a drug sample log it does not appear necessary for the guidelines of such a log to be in the nurse protocol agreement. The distribution of drug samples by APRNs must be included in the drug sample log.
